

PRODUCT INFORMATION

HM-10-4 / 5 / Dual

Hand Microphone

Specifications:

- High quality Stick Microphone
- Zinc die-cast body
- Heavy-duty cylindrical screen
- Choice of inserts - DX , Normal or Dual
- PTT switch - non latching type
- Output terminates into a 4-pin XLR connector
- Requires CC-1 adaptor
- Includes stand threaded adaptor, Mic Muff & case

A stick microphone adds that extra bit of luxury to your station. And with Heil you experience the quality as well. The dual version offers switched response at the flick of a switch. HM-10 models can easily be upgraded to dual version as changeover switch is included on the body.

Your Callsign Deserves a Decent Microphone

Heil has the Answer!

The HM-10 microphone is available in three models. The HM-10-4 is fitted with the HC-4 DX mic. element with a response from 500Hz to 3.5kHz with a 10dB mid-range peak. The HM-10-5 is fitted with the HC-5 Normal mic. insert with a frequency response from 350Hz to 4kHz with a 6dB mid-range peak. The third model is the HM-10-Dual with both mic. elements already fitted. The narrow/wide switch on the front switches either the HC-4 or HC-5 element for DX or Normal communications (HM-10-Dual). All microphones are fitted with a 4-pin XLR system. A range of connector adaptors (CC-1 series) are available for Kenwood, Icom & Yaesu and for 8-pin or modular plugs. Other accessories are available such as the Desk Stand, Standard boom, Small boom and Shock Mount.

HM-10-4 Hand Microphone with HC-4 DX element

HM-10-5 Hand Microphone with HC-5 Normal element

HM-10-Dual Hand Microphone with HC-4 &HC-5 elements
