

PRODUCT INFORMATION

PR-20 (W/P/R)

PROFESSIONAL DYNAMIC CARDIOID MIC

Specifications:

- *Generating element: Dynamic*
- *Body: Mild steel and die cast zinc*
- *Frequency response: 40Hz to 18kHz*
- *Output impedance 600 Ohms balanced*
- *Connections: P1 shield P2 + P3 -*
- *Output level: -55dB @ 1000Hz*
- *Polar pattern: Cardioid*
- *Diaphragm: Low mass 1 1/8" alloy.*
- *XLR Connection*
- *Finish: Pearlescence - red, pink or white*
- *Weight: 2.7kg*

The 'Spotlight Series' PR-20(W/P/R) are professional quality dynamic cardioid microphones designed for commercial broadcast, recording and live sound reinforcement applications which require a smooth flat response over a wide frequency range, excellent transient response. They produce a beautifully smooth audio response without the inconvenience of phantom or external DC powering. Also great as amateur radio microphones.

The PR-20 series of microphones are a dynamic design that produces a quality of sound normally associated with condenser microphones, but without the shortcomings associated with a condenser design when used for close speaking.

Available in a choice of three pearlescent colours, the microphones are supplied with a soft case that also includes a foam wind shield and standard mic holder adaptor.

Order As PR-20W Professional Cardioid Mic White Pearlescence

Order As PR-20P Professional Cardioid Mic Pink Pearlescence

Order As PR-20R Professional Cardioid Mic Red Pearlescence
