- *Standard 3-pin XLR pin configuration*
- *-55dB output level*
- *Black satin epoxy finish*
- *Supplied with SM-3 mount*
- *Not suitable for 706 or early Icom rigs*
- *Requires suitable base*
- *CC-1XLR cable required for particular HF rig*

The PR-781 professional quality dynamic cardioid studio microphone is the latest version of this quality microphone. It is particularly suitable for most of the top-of-the-range HF transceivers in the Yaesu, Icom and Kenwood ranges. Its electrical and acoustical characteristics are identical to the PR-780 but only comes with the SM-3 mount as shown in the photo. It does not come with a base, but it can be mounted using one on the Heil Studio Mic booms. It also requires an appropriate CC-1 XLR cable for your particular HF rig, plus a PTT hand switch such as the HS-2.

Order As PR-781 Deluxe Microphone (with SM-3 Mount)

Order As CB-1(H) Heritage Base (without PTT)

Order As CC-1 XLR XLR (K8, Y8 or I8) Connecting leads
